

PhD thesis

Song Guo, MD

The role of genetics on migraine induction triggered by CGRP and PACAP38

Dear colleagues and friends,

I would like to invite you to my thesis defence to be held on:

Friday, 4th November 2016 at 15:00.

The venue is **Auditorium 2, Rigshospitalet**, Entrance 44, Blegdamsvej 9, 2100 Copenhagen

There will be a reception afterwards beside the auditorium.

The title of the thesis is " The role of genetics on migraine induction triggered by CGRP and PACAP38". It is based on four published studies regarding migraine triggered by neuropeptides CGRP and PACAP38 in genotyped migraine patients.

Members of the assessment committee are:

Prof. Peter Goadsby, PhD Bendik Slagsvold Winsvold, and Prof. Steen Hasselbalch (Chairperson).

For information about the venue, please refer to this map:
